

ATPBR Webinar 38

Free

ATPBR
Breeding for Prosperity

▶ Title of the talk

“Metabolic engineering of plants using genome editing – CRISPR/Cas9 based modification of the carotenoid biosynthesis pathway in tomato.”

Speaker

Boney Kuriakose

Senior Scientist.
Plant Biotechnology Genomines,
Paris, France

Moderator

Dr. KK Narayanan
Founder, Director - ATPBR

Venue : Google Meet (Online)

11 January, 2025
3:00 pm

E-certificate will be provided to student who attend the complete webinar
